

Governor's Office of
Student Achievement

2024 Assessment Audit Results

July 15, 2024

The Governor's Office of Student Achievement (GOSA) serves as the reporting and accountability agency for education in Georgia. As such, GOSA is charged by law (O.C.G.A. § 20-14-35 and O.C.G.A. § 20-14-36) with inspecting academic records of schools to ensure that education institutions are faithful to performance accountability requirements. Through an academic audit, GOSA reviews student assessment data and other school records reported to the Georgia Department of Education (GaDOE) to confirm accuracy and explore the effectiveness of local school initiatives in improving achievement.

Data from state standardized assessments aim to assist in making educational policy decisions and provide a measure of students' academic performance, as well as the schools' effectiveness and adherence to prescribed standards. The Assessment Division at GaDOE oversees the development and administration of the Georgia Milestones End of Grade (EOG) for grades 3-8 and Georgia Milestones End of Course (EOC) assessments in ten high school courses.

GOSA conducts an annual assessment audit to ensure that all schools and local education agencies (LEAs) administer assessments with fidelity. Through the assessment audit, GOSA also reviews details on the administration of the Georgia Alternate Assessment 2.0 (GAA 2.0), as well as ACCESS and Alternate ACCESS for English Language Learners 2.0 (ACCESS for ELLs 2.0) for audited schools.

Audit of 2022-2023 Milestones

Georgia Milestones Flags

For the 2022-2023 school year, DRC reported analyses of Gain Scores, Unusual Response Patterns, and Test Duration. Previously, DRC reported analysis of Gain Scores, Unusual Response Patterns, Response Time and Wrong-To-Right Answer Changes². These analyses identify classrooms and schools for which these metrics are well above the state average. This year, GOSA uses the three analyses to flag schools for the assessment audit (see appendix for more calculation details). All calculations exclude classrooms with fewer than eight students. It is important to note that the results of these analyses are used as an initial flag to spur further investigation of many indicators to determine if any cheating occurred. The results of the analyses do not indicate that cheating necessarily occurred.

Unusual Response Pattern Analysis Flag

- Two or more testing groups in a school are in the 95th percentile or greater for unusual responses

Gain Score Analysis Flag

- One or more classrooms have an outlier score of 10 or greater.

Test Duration Analysis Flag

Thirty percent or more of classrooms in a school have a test duration standard score greater than or equal to 4.0 or less than or equal to -4.0 for EOGs OR greater than or equal to 5.0 or less than or equal to -5.0 for EOCs.

Table 1 below provides an overview of the flags generated from the Winter 2022, Spring 2023, and Summer 2023 Georgia Milestones administrations. Refer to [Appendix B](#) for more information on schools with two or more flags.

Table 1. Distribution of Flags

<i>Number of Flags</i>	<i>Number of Schools</i>
0	445
1	1,589
2	150
3	24
Total Schools	2,208

Georgia Milestones Inquiry

GOSA includes all schools with 2 or more flags in its initial Assessment Audit Inquiry phase. For the 2024 Assessment Audit, GOSA identified 174 schools for further inquiry. GOSA provided each identified school with information on their flags and the opportunity to request additional classroom-level data. Identified schools then completed an inquiry form describing the test security and administration plan, as well as any irregularities that occurred during their flagged testing administration.

GOSA also asked these schools questions about their training, administration plan, and irregularities for the Georgia Alternate Assessment (GAA) 2.0, ACCESS for English Language Learners (ELLs) 2.0, and Alternate ACCESS for ELLs. GOSA included questions about these assessments to collect baseline information for potentially expanding the Assessment Audit to include those assessments in future years.

2023-2024 Georgia Milestones Spring Test Monitoring

School Selection

GOSA assigned staff to monitor and observe the security and integrity of the testing environment at 44 schools during the Spring 2024 Georgia Milestones Administration.¹ All 174 flagged schools expected a potential test monitoring visit but did not know in advance if and when monitoring would occur. Of the schools identified for the Assessment Audit Inquiry phase, test monitors visited either schools with three flags (24 schools), schools whose inquiry form responses indicated a procedural error (0 schools), or randomly selected schools (14 schools).² Refer to [Appendix C](#) for more information about how GOSA selected schools for test monitoring visits.

Additionally, GOSA sent test monitors to all State Charter Schools Commission (SCSC) schools that opened in the last two academic years (6 schools):

- Atlanta SMART Academy
- Destination Career Academy
- Northwest Classical Academy
- Resurgence Hall Middle Academy
- Delta STEAM Academy
- Yi Hwang Academy of Language Excellence

GOSA ultimately assigned monitoring visits to 44 schools total for the 2023-24 Milestones Audit.

Test Monitoring Results

Test monitors at the following 44 schools did not identify any issues with the Spring 2024 Georgia Milestones Administrations.

As a result of the test monitoring phase, there were no incidents reported which indicated a procedural error.

- Atlanta Public Schools, Heritage Academy Elementary School
- Atlanta SMART Academy
- Bartow County, Adairsville Elementary School
- Bibb County, Academy for Classical Education
- Brantley County, Brantley County Middle School
- Candler County, Metter Elementary School
- Carrollton City, Carrollton Junior High School
- Clarke County, Oglethorpe Avenue Elementary School

¹ Due to limited staff capacity, GOSA monitored approximately two percent of the total number of schools with Georgia Milestones data.

² For random selection, GOSA used Stata's "Select" command and implemented a grade band quota to ensure that the sample of monitored schools was proportionally representative of all elementary, middle, and high schools in Georgia, as well as schools that span grade bands. GOSA excluded schools from random selection if another school in that LEA was already selected for monitoring based on the number of flags or inquiry form responses.

- Dubois Integrity Academy, Dubois Integrity Academy
- Cobb County, Lindley 6th Grade Academy
- Destination Career Academy, Destination Career Academy of Georgia
- Cook County, Cook County Middle School
- Coweta County, Newnan High School
- Coweta County, Smokey Road Middle School
- Dekalb County, Dekalb Agriculture & Technology Environment
- Dekalb County, Dekalb Elementary School of the Arts
- Dekalb County, Edward L. Bouie, Sr. Elementary School
- Dekalb County, Lithonia Middle School
- Delta STEAM Academy
- Dougherty County, Robert A. Cross Middle Magnet
- Dublin City, Dublin Middle School
- Fayette County, Bennett's Mill Middle School
- Franklin County, Royston Elementary School
- Glynn County, Brunswick High School
- Gwinnett County, Dacula High School
- Gwinnett County, Shiloh High School
- Gwinnett County, Shiloh Middle School
- Haralson County, Haralson County Middle School
- Harris County, Harris Carver Middle School
- Henry County, Dutchtown Middle School
- Jeff Davis County, Jeff Davis Middle School
- Lamar County, Lamar County Middle School
- Meriwether County, Mountain View Elementary School
- Northwest Classical Academy
- Pickens County, Jasper Middle School
- Pierce County, Pierce County High School
- Resurgence Hall Middle Academy
- Richmond County, Meadowbrook Elementary School
- Sumter County, Sumter County Intermediate School
- Telfair County, Telfair County Middle School
- Thomas County, Thomas County Middle School
- Walton County, Harmony Elementary School
- Wilkes County, Washington-Wilkes Middle School
- Yi Hwang Academy of Language Excellence

Appendix A: Flagging Criteria Calculation Guide

The Data Recognition Corporation (DRC) processes data from the Georgia Milestones administration and reports various metrics to the Georgia Department of Education (GaDOE). The Governor's Office of Student Achievement (GOSA) uses these metrics to determine which schools to include in the Assessment Audit. The guide below outlines the flagging criteria GOSA uses to select schools for the Assessment Audit and includes an overview of each calculation.

None of the criteria listed necessarily indicates whether a classroom or school engaged in unethical testing practices. Each criterion is simply an indicator of behaviors outside of the state norm that might indicate unusual practices.

DRC only calculated the Unusual Response Pattern and Gain Score flags for classrooms with eight or more students. GOSA further excluded classrooms with fewer than eight students from the Test Duration analysis.

1. Unusual Response Pattern Analysis – Calculation Overview

DRC reports the Unusual Response Pattern analysis for English/Language Arts and Mathematics assessments for Grade 4 through Grade 8. The calculation is based on the methodology of Jacob and Levitt (2003).³ The Unusual Response Pattern analysis includes two indices. The first index ranks each classrooms' average test score gains relative to other classrooms in that grade and subject, based on matched student test data. The ranking is scaled to percentiles.

The second index includes unexpected patterns in student answers, considered four ways:

- Unlikely blocks of identical answers given by students on consecutive items,
- Degree of correlation in student responses across the test (particularly for unexpected answers),
- Variance of test residuals for the cohort (particular questions having extremely high residual deviations within cohorts), and
- Cases in which students miss easy items while answering difficult items correctly.

DRC then ranks classrooms across each of these four measures. The ranks are combined to create a composite index ranking, scaled to percentiles.

Flagging Criteria

GOSA flags schools for unusual response patterns if the school meets the below criterion:

- Two or more testing groups in a school were in the 95th percentile or greater for unusual responses, meaning the testing group ranked in the 95th percentile for both indices.

³ Jacob, B. & Levitt, S (2003). Rotten apples: An Investigation of the prevalence and predictors of teacher cheating, *The Quarterly Journal of Economics*, 118 (3), 843-877.

2. Gain Score Analysis - Calculation Overview

DRC reports the Gain Score analysis for English/Language Arts and Mathematics assessments for Grade 4 through Grade 8. Using the classroom administrator of record in 2023, the difference in mean scale scores for the group of students associated with the administrator is compared against the difference in scale scores for the state.⁴ Students are matched from 2022 to 2023. Gain score calculations are based on t-test results between gains in the testing group versus the state.

The outlier score is calculated using the p-value of the t-test:

$$OS = |1.086 \ln(\frac{p}{q})|$$

p = p-value of the t-test, or the probability that the classroom gains are significantly higher than the average state gains

$$q = 1 - p$$

The coefficient 1.086 was used such that a p-value of .0001 (significantly low probability that such gains would occur) results in an outlier score of 10. The natural log was taken to make the scale symmetric around small and large probabilities. An outlier score of 10 or greater is considered different from the baseline.

Flagging Criteria

GOSA flags schools for gain scores if the school meets the below criterion:

- One or more classrooms has an outlier score of 10 or greater. This means the probability that a classroom's gains are equal to the average state gains is less than 0.01%.

3. Test Duration Analysis- Calculation Overview

DRC reports the Test Duration analysis for online administrations of the Georgia Milestones. The INSIGHT test administration software captures test duration for all operational test items for each student.

The Response Time analysis uses standard scores (z-scores, instead of strictly standard deviation) to account for differences in classroom sizes:

$$z = \frac{x - \mu}{\sigma/\sqrt{n}}$$

μ = mean test duration of state population

⁴ DRC converts the scaled scores to z-scores before computing the statistical test to account for differences in scale scores across grades.

σ = standard deviation of state population

n = classroom size

Flagging Criteria

GOSA flags schools for response times if the school meets the following criteria:

- Thirty percent or more of classrooms in a school have a test duration standard score greater than or equal to 4.0 or less than or equal to -4.0 for EOGs OR greater than or equal to 5.0 or less than or equal to -5.0 for EOCs. This criterion identifies schools in which several classrooms administered tests for a time period that was lower or higher than the state norm.

Appendix B: School Flags

The schools below received two or more flags from the analysis of 2022-2023 Georgia Milestones data. Schools with an * indicate a State Charter School that has opened in the last two years. While these schools do not have two or more flags, GOSA audits new State Charter Schools regardless of total flags. It is important to note that these analyses only identify classrooms that are outliers; these analyses do not indicate that cheating necessarily occurred. These schools all completed the Assessment Audit Inquiry form. GOSA told each of these schools to expect a potential test monitoring visit during the Spring 2024 Georgia Milestones Administration.

Appendix C: Test Monitoring Selection and Comments

GOSA assigned staff to monitor the 44 schools below during the Spring 2024 Georgia Milestones administration. GOSA monitored all SCSC schools that opened in the last two academic years and schools requiring further attention from the 2019 Assessment Audit. GOSA monitored a selection of flagged schools (see [Appendix B](#)) determined by the number of flags, schools whose inquiry form indicated a procedural error, and randomly selected schools. GOSA also monitored Grace Snell Middle School in Gwinnett County after a testing incident was reported to GaDOE during the Spring 2024 Georgia Milestones administration.

Table 3. Monitored Schools

System	School	Reason for Monitoring	Monitoring Results
Atlanta Public Schools	Heritage Academy Elementary School	Three flags	No concerns observed
Bartow County	Adairsville Elementary School	Randomly selected	No concerns observed
Brantley County	Brantley County Middle School	Three flags	No concerns observed
