

Change in Percentage Hispanic Students, 2003-04 to 2012-13

Note: Circles represent city districts.

Source: GOSA's Report Card

The values for this map ranged from -1 to 16. Based on the distribution of these values, GOSA created three categories for positive values and one category for negative values. The three categories for positive values contain 5-6 points each, and the negative category contains negative values and no change.
