Governor's Honors Program
Computer Science
Interview Preparation
(2024)

Semifinalists in Computer Science will participate in an individual interview featuring a portfolio review.

Computer Science Portfolio:
- Must include examples (pictures, presentations, demonstrations, etc.) of the semifinalist's interests and work products in computer science.
  - Topics should be inclusive of front- and back-end web development, cybersecurity, intelligent systems, program construction, data structures, networking, and/or general computer systems.

- Portfolios may also be presented on a device or electronic medium (i.e., mobile phone, tablet, or laptop) as long as the device does not exceed laptop size. *Projectors are not necessary and will not be permitted.* Semifinalists should be mindful that electronic portfolios or demonstrations must fit within the interview time limits. *GHP cannot guarantee that internet access (e.g., Wi- Fi) will be available at the interview site.*

Semifinalists should anticipate being on-site for at least 60 - 90 minutes.
