Music: Strings Audition Preparation (2024)

Semifinalists in Music will participate in an individual interview **before or after** their auditions. Semifinalists should anticipate being on-site for at least 90 minutes. It is strongly recommended that semifinalists consult an instructor prior to making a final choice of repertoire.

PLEASE NOTE: Semifinalists will audition without accompaniment. Prepare your chosen selection carefully by skipping over any “accompaniment-only” sections. Awkward selection transitions will not factor into scoring.

Strings Semifinalists:

Semifinalists should be prepared to perform a 90 second (or less) composition/partial composition of his/her choice and sight-read two excerpts that will be provided by the interviewer on-site.
