

Governor's Honors Program

2020 World Languages: Spanish Interview Preparation

The state-level selection process will consist of:

- an individual interview (conducted in the target language).
 - A portion of the interview will consist of oral language picture prompts.
- a writing sample in the targeted language.

The purposes of the interview and writing sample are to determine the level of linguistic proficiency attained by the student and to measure commitment and interest. Semifinalists should anticipate being on-site for 90-120 minutes.
