

# Change in Percentage White Students, 2003-04 to 2012-13

Note: Circles represent city districts.

Source: GOSA's Report Card

The values for this map ranged from -31 to 12. Based on the distribution of these values, GOSA created one category for positive values and three categories for negative values. The category for positive values contains no change and positive values, and the negative categories contain 10-11 points each.
